

Amendments to the Drawings:

A proposed replacement FIG. 1 and a proposed amended FIG. 1 are attached with Amendment and Response. The proposed amendments are indicated in red in the proposed amended FIG. 1. The amendments include the addition of a reference character 82 and a leader line directed to the arrow indicator, as described in the Specification in the paragraph beginning at page 5, line 21.

The proposed amendment is fully supported by the Specification as filed and no new matter is added by the proposed amendment to FIG. 1. Approval of the proposed amendments and entry of the Replacement FIG. 1 are respectfully requested.

REMARKS

In the present application, claims 1, 3, 18 and 20 have been amended, and claims 2 and 19 have been cancelled. Amendments to the Specification have been proposed. Claims 1, 3 to 18, and 20 to 33 remain pending. Entry of the amendments to the Specification and reexamination and reconsideration of the application in view of the above amendments and the following remarks is respectfully requested.

Objections to the Drawings

The Examiner objected to the Drawings for failing to indicate an element identified with reference character 82, as described in the Specification. A proposed replacement FIG. 1 has been submitted with reference character 82 added. Entry of the proposed amended FIG. 1 and withdrawal of the objection are respectfully requested.

Amendments to the Specification

Amendments to the Specification have been proposed to clarify a sensor positioned within the housing behind an indicator arrow 82. No new matter has been added to the Specification with these amendments. Entry of the amendments are respectfully requested.

Substantive Rejections

The Examiner rejected claims 1 and 18 under 35 U.S.C. §103(a) as anticipated by the Applicants admitted prior art. These rejections are respectfully traversed. The Examiner also objected to claims 2 to 17 and 19 to 33 as depending from rejected base claims but including allowable subject matter.

Claims 1 and 18 were amended to incorporate limitations previously recited in claims 2 and 19, respectively. Claims 2 and 19 have been cancelled. As the Examiner indicated these claims included allowable subject matter, Applicant submits that claims 1 and 18 are now in condition for immediate allowance. Claims 3 to 17 depend from and further limit claim 1 and claims 20 to 33 depend from and further limit claim 18. Applicant submits that claims 3 to 17 and 20 to 33 are also in condition for immediate allowance.

Reexamination and reconsideration of the application is respectfully requested.

If the Examiner has any questions regarding this Amendment and Response, the Examiner is invited to contact Applicant's representative Alan R. Stewart at 612.371.5376.

Respectfully submitted,
